To Whom It May Concern,

REFERENCE FOR BDO ADVISORY SERVICES (PTY) LTD

I am writing to provide a reference for the work conducted by BDO Advisory Services (Pty) Ltd in their capacity as co-sourced internal auditors to SS&C Administration Services SA (previously Curo Fund Services). The engagement required BDO to integrate with our internal audit function and deliver meaningfully against our approved internal audit plan.

The engagement was led and managed professionally throughout. BDO demonstrated a clear understanding of our operating environment, risk landscape, and internal audit requirements. Their team conducted structured, well-documented audit work across the agreed scope and provided findings and recommendations that were practical and relevant to our organisation.

The deliverables met our expectations in terms of quality, rigor, and timeliness. BDO communicated their findings clearly and in a manner that facilitated constructive engagement with management and supported our internal governance processes.

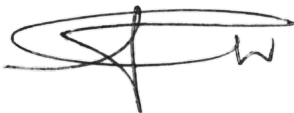

Their approach was collaborative and professional, and they added genuine value to our internal audit function over the course of the engagement.

In this regard, I highlight Kevin Moodley, the assigned BDO Partner has become our trusted partner.

Based on our experience, I would recommend BDO Advisory Services (Pty) Ltd to other organisations seeking a capable and reliable co-sourced internal audit partner.

Should you require further information, please do not hesitate to contact me.

Sincerely,

Shihaam Croeser

Executive: GRC
