Elevating **people**. Elevating **business**. Elevating **society**.

About BDO Academy – what we do

BDO Academy is South Africa's professional learning and development hub – created to help organisations and individuals build capability, strengthen performance and prepare confidently for the future of work.

We are the **first and only auditing firm in South Africa** to be accredited by ACCA as both a **Learning**

Partner and an Employer Partner, demonstrating global recognition of our training quality, delivery and outcomes.

Our purpose is simple:

To unlock growth through learning that transforms careers, organisations and our profession.

Why the academy matters

The world of finance is changing rapidly. Organisations need professionals who are technically strong, digitally enabled and ready to respond to increasing regulation and industry pressure.

BDO Academy meets this need through structured,

credible learning built by a firm that lives the realities of audit, tax and advisory every day.

We are not “just another training provider.”

We are an industry-embedded learning partner guided by global quality standards.

Our ACCA advantage

Our dual ACCA accreditation places BDO Academy among a select group of global learning providers recognised for excellence in training and professional development.

What this means for organisations:

- ▶ Assurance of the highest quality learning standards
- ▶ Improved workforce capability and organisational readiness
- ▶ Confidence that training will translate into performance

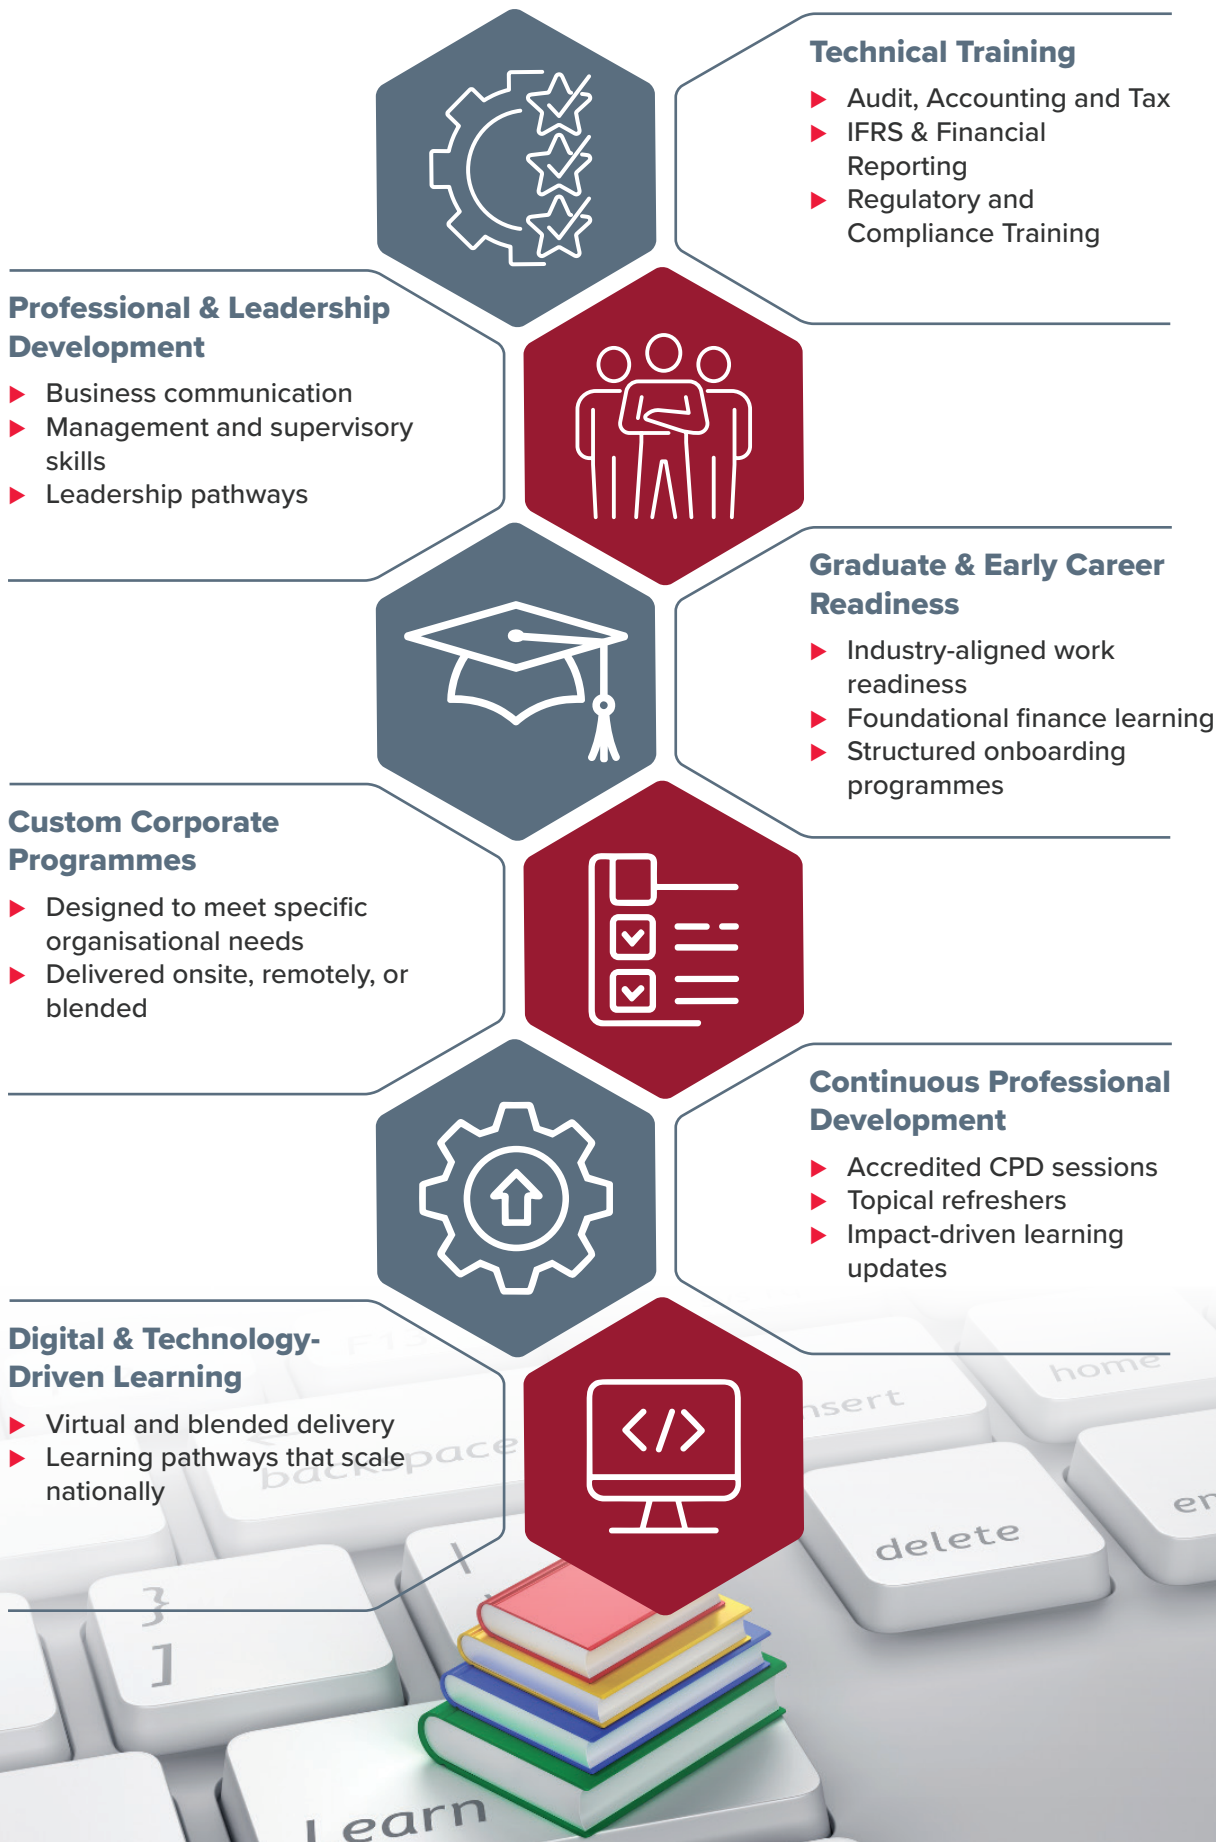

What this means for learners:

- ▶ Enhanced employability and marketability
- ▶ Access to internationally benchmarked learning pathways
- ▶ Career mobility across borders
- ▶ This is the credibility that sets BDO Academy apart.
