

INFORMATION SECURITY MANAGEMENT SERVICES

ISO 27001 Assessments, Implementations and Audits

FIGHT FEWER FIRES BY ALIGNING YOUR INFORMATION SECURITY MANAGEMENT APPROACH TO INTERNATIONAL BEST-PRACTICE STANDARDS

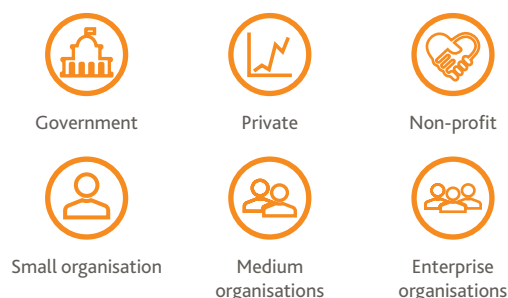

The BDO Cyber and Forensic Lab aims to help clients efficiently navigate the information security risk landscape by covering all the fundamental bases of a company's information security management system. Our process is fully aligned to ISO 27001:2013, an international standard governing the policies, procedures and guidelines around protecting information assets used throughout the organisation.

BENEFITS

- ▶ Lower costs by reducing the probability and damage caused by incidents
- ▶ Present the facts when it comes to the confidentiality, integrity and availability of information assets
- ▶ Provide customers and stakeholders with confidence in how you manage risk
- ▶ Protect your company's assets, staff, shareholders and directors
